Roth IRA For a better financial future

Live better

Travis Credit Union is focused on helping our members live better and achieve their financial goals at every stage of life. That's why we offer an assortment of products to help you plan for all your financial needs. When it comes to retirement, an Individual Retirement Account (IRA) is a great way to save and supplement your income in your retirement years. Simply put, an IRA is a savings account that offers tax breaks and compound interest which help your earnings grow even faster. The specific tax benefit will depend on which IRA you choose, and your personal tax situation.*

What is a Roth IRA?

A Roth IRA is an individual retirement account designed to allow individuals to save money with the benefit of receiving a tax break during their retirement years. Contributions are not tax-deductible, however, withdrawals of the earnings are generally tax-free when taken for a qualified reason.

Am I eligible for a Roth IRA?

Contributions can be made to a Roth IRA, regardless of age, based on the eligibility limits listed below:

- IRA owner (or spouse) must have earned income
- Modified Adjust Gross Income (MAGI) cannot exceed the limits based on tax filing status (See the MAGI Limits chart to the right)

Do I get a tax deduction for my contributions?

Contributions to a Roth IRA are not tax deductible. If you are looking for an immediate tax break by being able to deduct your IRA contributions, you might consider a Traditional IRA. Please consult your tax professional for specific recommendations based on your individual tax needs.*

How much can I contribute?

Contributions can be made to a Roth IRA of up to 100 percent of your earned income or the annual contribution limit as noted in the chart below, whichever is less. This is an aggregate total between any Traditional and/or Roth IRA contributions. In addition, your Modified Adjust Gross Income (MAGI) cannot exceed certain limits (shown below). The IRS reviews the contribution limits annually and adjusts if necessary to keep in line with inflation and the cost of living.

IRA Contribution Limit	\$7,000+
IRA Contribution Limit over age of 50	\$8,000+

+cannot exceed 100% of earned income

MAGI Chart

separately and you did not live with your spouse at any time	\$146,000 or greater, but less than \$161,000	A reduced amount
during the year	\$161,000 or greater	Zero

When is the deadline for contributing to a Roth IRA?

The deadline for regular and catch-up IRA contributions is your federal income tax filing due date, excluding extensions (usually April 15th).

What are the rules regarding distributions?

- Early Withdrawal Penalties Roth IRA distributions of contribution amounts are not subject to penalty, regardless of age or whether an exception applies. Distributions of the earnings may be subject to penalty, depending on whether the distribution is considered qualified. To be a qualified distribution, five years must have elapsed since the first Roth IRA contribution was made, **and** you are over 59½, permanently disabled, a first time home buyer, etc. For a complete list of exceptions to penalty on early distributions, visit *www.irs.gov.*
- Taxation of Withdrawals Roth IRA distributions of contributions are non-taxable. Earnings may be subject to tax, depending on whether the distribution is considered qualified.
- Mandatory Withdrawals You are not required to take distributions from your Roth IRA. Assets held in a Roth IRA are not subject to the age 72 required minimum distributions.

What happens to my IRA in the event of my death?

In the event of your death, your named beneficiary(ies) will be notified and receive the rights to the balance of your Roth IRA. Distributions to your beneficiary(ies) are tax free and penalty free. There are several options available to your beneficiary(ies) on how the funds can be disbursed based on their relationship and age.
